QUALITY CARE

Patient satisfaction is a high priority for everyone at Wye Surgery. We work hard to deliver excellent care and welcome feedback from patients to help us do this.

Patient Charter

Our charter sets out our responsibilities to you and your rights and obligations to us as a patient. We also support the NHS Zero Tolerance Campaign and actively promote respect and co-operation between patients and staff.

Patient Participation Group (PPG)

A group of our patients and staff meet regularly to discuss our services and new initiatives; minutes are published at www.wyesurgery.co.uk (*Patient Involvement*). To join our PPG, please ask at Reception or look online.

Complete our patient survey - it's anonymous!

After your next appointment, please complete our anonymous online survey at www.wyesurgery.co.uk. Patient feedback from this survey is regularly viewed by us and used in our staff training.

Suggestions box

Or if you prefer, you can put written feedback into our Suggestions Box in reception.

Complaints

Should you wish to make a complaint please contact our Practice Manager who will conduct a full review using NHS guidelines.

Data protection

To protect your privacy everyone working for the NHS has a legal duty to keep your records confidential.

Full details about our practice and its policies are available at www.wyesurgery.co.uk (*About Us*) - alternatively, please ask at Reception.

GOVERNANCE

Wye Surgery is a member of the Kent and Medway Clinical Commissioning Group (KMCCG), a statutory NHS organisation responsible for commissioning local health services. The KMCCG aims to improve the health and well-being of residents by engaging with local GPs to lead this work and working in partnership with patients, councils, Public Health and other key stakeholders.

CLINICS & SERVICES

LOOKING TO THE FUTURE

Dr Fox, Dr Miles and the Practice are accredited to train doctors who intend to become general practitioners.

This means the Doctors and the Practice have achieved a number of standards as assessed by the GP Deanery for Kent, Surrey and Sussex - acting on behalf of the Postgraduate Medical Education Board.

Wye Surgery also trains and supports other doctors and medical students from time to time.

eConsult

This is an online service available via our website www.wyesurgery.co.uk. If you need non-urgent advice, instead of coming in for an appointment you can use **eConsult** to find reliable self help or message our GPs for advice.

GP Appointments

We aim to see patients quickly with our GP Access Appointments system. For an appointment just ring the surgery during opening hours (see page 5) and:

- A GP or one of our other clinicians will call you back to assess your health needs by phone - usually within the hour or at another time to suit you
- You may be given advice, a prescription or offered an appointment at the surgery.

Free 'Text reminder service' for appointments

Patients with mobile phones can help us reduce the number of missed appointments by opting-in to our FREE text reminder service. For more details contact Reception or download a 'Text reminder joining form', from www.wyesurgery.co.uk (*Latest News*).

Wye clinics

Wye Surgery offers patients the following on-site clinics. Your GP may refer you to one of these, if necessary, and appointments are made by our Reception:

- Asthma
- Blood testing
- Female health/cervical smears
- Diabetes
- Family planning
- Physiotherapy
- Pregnancy and maternity.

Wye outpatients and other services

Wye Surgery is an approved host for a range of outpatient clinics and enhanced services. Any GP in East Kent can refer their patients here to see hospital consultants and other special practitioners. This alternative to a hospital setting is more relaxing and means patients will be seen by the same consultant for both initial and any follow up appointments:

- Cardiovascular - Cardiology GPSI, Ambulatory BP, ECG monitoring 12 lead and Novacor
- ENT (ear, nose and throat) - Audiology (hearing), Aural Care Microsuction (ear care)
- Surgery - Colorectal (bowel), General Surgery, Vasectomy and Minor Operations
- MSK and Joint Injections
- Ultrasound.

Private services

In addition to our NHS services we can also provide a range of fee-based, non-NHS services. A list of these is available from Reception and at www.wyesurgery.co.uk (*About Us, Private Services*). Please note we do not accept private patients.
