Other private work – if any other services are required prices will be discussed and agreed with patients at the start.			
Firearms certificates are no longer completed as part of private non-NHS fees.			

NB: The above private, non-NHS fees are subject to change at the discretion of Wye Surgery.

- All private work must be paid for in advance. As soon as you have paid your request will be actioned. (Unfortunately, advance payment is required because of an increase in the number of patients asking for private work then either missing their appointment or failing to pay afterwards.)
- Please also note that if any additional work is needed to complete your original request, a small additional charge may be made. However, where possible we will ensure that the initial charge is accurate.
- VAT Disclaimer – VAT is an inherently complicated area and whilst the above reflects the general VAT position, the specific purpose of the service provided may affect the VAT status of the fee charged.
